DCOD AgroChart

2012 - 2019

AgroChart - Prices. Trading. Balances. Statistics. News. Forecasts.
Python/Django developer

<http://www.agrochart.com/>

- Project architecture development and implementation
- Main modules implementation
- Distributed data sources parsing architecture development and implementation
- Distributed data caching system architecture development and implementation
- Distributed cache invalidation system architecture development and implementation
- Frontend development
- Deploy development and implementation

Python, Django, Multithreading, JavaScript, JQuery, Backbone, ExtJS, Anychart, AmChart, Highcharts, HTML, CSS, SASS, Gulp, Celery, RabbitMQ, MySQL, PostgreSQL, PostgreSQL FTS, Memcached, Redis, Nginx, Fabric, Salt Stack, Ansible, AWS

Freelance DioraShop

2012 - 2013

Handiwork commodities online shop.

<http://www.diorashop.com/>

Open Source nagios-notification-google-calendar

2013 - Present

Notifications via Google Calendar Nagios plugin.

<https://github.com/vint21h/nagios-notification-google-calendar/>

DCOD DCOD

2013 - 2019

DCOD site

<http://www.d-cod.com/>

Python/Django developer

- Page generation system development
- Frontend development
- Deploy development and implementation

Python, Django, Cactus, JavaScript, JQuery, HTML, CSS, Ansible, AWS

Open Source django-po2xls

2013 - Present

Convert gettext .po files to .xls.

<https://github.com/vint21h/django-po2xls/>

DCOD bstRating

2013 - 2014

Free companies catalog/rating.

<http://www.bstrating.com/>

Python/Django developer

- Project architecture development and implementation
- Main modules implementation
- Frontend development
- Deploy development and implementation

Python, Django, JavaScript, JQuery, Backbone, HTML, CSS, PostgreSQL, Memcached, Redis, Nginx, AWS

Open Source django-mcadmin

2013 - Present

Easy run management commands from Django admin.

<https://github.com/vint21h/django-mcadmin/>

DCOD FRB

2013 - 2015

FINROSTBANK official site.

<http://www.frb.com.ua/>

Python/Django developer

- Project architecture development and implementation
- Main modules implementation
- Frontend development
- Deploy development and implementation

Python, Django, JavaScript, JQuery, Backbone, HTML, CSS, Celery, RabbitMQ, PostgreSQL, PostgreSQL FTS, Memcached, Redis, Nginx, AWS

DCOD AgroCharts

2013 - 2016

Increase the information content and traffic to your website by placing on it the latest data of USDA reports, foreign trade and futures. Learn how to get the embed code for your site...

<http://www.agrocharts.com/en/>
