AgroChart - Prices. Trading. Balances. Statistics. News. Forecasts.

<http://www.agrochart.com/>

Python/Django developer

- Project architecture development and implementation
- Main modules implementation
- Distributed data sources parsing architecture development and implementation
- Distributed data caching system architecture development and implementation
- Distributed cache invalidation system architecture development and implementation
- Frontend development
- Deploy development and implementation

Python, Django, Multithreading, JavaScript, JQuery, Backbone, ExtJS, Anychart, AmChart, Highcharts, HTML, CSS, SASS, Gulp, Celery, RabbitMQ, MySQL, PostgreSQL, PostgreSQL FTS, Memcached, Redis, Nginx, Fabric, Salt Stack, Ansible, AWS

Freelance DioraShop 2012 - 2013

Handiwork commodities online shop.

<http://www.diorashop.com/>

Open Source nagios-notification-google-calendar 2013 - Present

Notifications via Google Calendar Nagios plugin.

<https://github.com/vint21h/nagios-notification-google-calendar/>

DCOD DCOD 2013 - 2019

DCOD site

<http://www.d-cod.com/>

Python/Django developer

- Page generation system development
- Frontend development
- Deploy development and implementation

Python, Django, Cactus, JavaScript, JQuery, HTML, CSS, Ansible, AWS

Open Source django-po2xls 2013 - Present

Convert gettext .po files to .xls.

<https://github.com/vint21h/django-po2xls/>

DCOD bstRating 2013 - 2015

Free companies catalog/rating.

<http://www.bstrating.com/>

Python/Django developer

- Project architecture development and implementation
- Main modules implementation
- Frontend development
- Deploy development and implementation

Python, Django, JavaScript, JQuery, Backbone, HTML, CSS, PostgreSQL, Memcached, Redis, Nginx, AWS

Open Source django-mcadmin 2013 - Present

Easy run management commands from Django admin.

<https://github.com/vint21h/django-mcadmin/>

DCOD FRB 2013 - 2015

FINROSTBANK official site.

<http://www.frb.com.ua/>

Python/Django developer

- Project architecture development and implementation
- Main modules implementation
- Frontend development
- Deploy development and implementation

Python, Django, JavaScript, JQuery, Backbone, HTML, CSS, Celery, RabbitMQ, PostgreSQL, PostgreSQL FTS, Memcached, Redis, Nginx, AWS

DCOD AgroCharts 2013 - 2016

Increase the information content and traffic to your website by placing on it the latest data of USDA reports, foreign trade and futures. Learn how to get the embed code for your site...

<http://www.agrocharts.com/en/>

Python/Django developer

- Project architecture development and implementation
- Main modules implementation
- Distributed data sources parsing architecture development and implementation
- Distributed data caching system architecture development and implementation

- Distributed cache invalidation system architecture development and implementation
- Frontend development
- Deploy development and implementation

Python, Multithreading, Django, JavaScript, JQuery, Backbone, Highcharts, HTML, CSS, SASS, Gulp, Celery, RabbitMQ, PostgreSQL, PostgreSQL FTS, Memcached, Redis, Nginx, Salt Stack, Ansible, AWS

Open Source django-xls2po

2014 - Present

django-xls2po is a django management command to convert django-po2xls generated .xls files to .po files.

<https://github.com/vint21h/django-xls2po/>

DCOD anyfoodanyfeed

2014 - 2019

Prevailing news resource of an agrarian theme. One of the best in Ukraine.

<http://www.anyfoodanyfeed.com/>

Python/Django developer

- Project architecture development and implementation
- Main modules implementation
- Distributed data sources parsing architecture development and implementation
- Distributed data caching system architecture development and implementation
- Distributed cache invalidation system architecture development and implementation
- Frontend development
- Deploy development and implementation

Python, Multithreading, Django, JavaScript, JQuery, Backbone, Highcharts, Google Maps API, HTML, CSS, SASS, Gulp, Celery, RabbitMQ, PostgreSQL, PostgreSQL FTS, Memcached, Redis, Nginx, Salt Stack, Ansible, AWS

Open Source django-opensearch

2014 - Present

Handle opensearch.xml for django.

<https://github.com/vint21h/django-opensearch/>

Open Source redactor-plugins-lineheight

2014 - Present

redactor-plugins-lineheight is a plugin for Redactor Text Editor (<http://imperavi.com/redactor/>) to set selected text line height.

<https://github.com/vint21h/redactor-plugins-lineheight/>

Open Source nagios-check-supervisord

2015 - Present

Check supervisord programs status Nagios plugin.

<https://github.com/vint21h/nagios-check-supervisord/>

Open Source django-djcopyright

2015 - Present

Django reusable app to show pretty formatted copyright years.

<https://github.com/vint21h/django-djcopyright/>

DCOD Open Source django-simple-help

2015 - 2019

Django reusable application providing page help.

<https://github.com/DCOD-OpenSource/django-simple-help/>

DCOD Open Source django-project-version

2016 - Present

Django reusable app to show your project version.

<https://github.com/DCOD-OpenSource/django-project-version/>
