Projects

Open Source nagios-notification-jabber
2011 - Present
Notifications via jabber Nagios plugin.
https://github.com/vint21h/nagios-notification-jabber/

Open Source nagios-check-hddtemp
2011 - Present
Check HDD temperature Nagios plugin.
https://github.com/vint21h/nagios-check-hddtemp/

DCOD GrainUkraine
2011 - 2019
Grain Ukraine - modern bulletin board for ukrainian suppliers of agricultural commodities and services.
http://www.grainukraine.com/
Python/Django developer
- Project architecture development and implementation
- Main modules implementation
- Frontend development
- Deploy development and implementation

Python, Django, JavaScript, JQuery, HTML, CSS, PostgreSQL, Sphinx, Memcached, Redis, Nginx, Fabric, Salt Stack, AWS

DCOD | AgroChart   2012 - 2019

AgroChart - Prices. Trading. Balances. Statistics. News. Forecasts.   http://www.agrochart.com/
Python/Django developer
- Project architecture development and implementation
- Main modules implementation
- Distributed data sources parsing architecture development and implementation
- Distributed data caching system architecture development and implementation
- Distributed cache invalidation system architecture development and implementation
- Frontend development
- Deploy development and implementation

Python, Django, Multithreading, JavaScript, JQuery, Backbone, ExtJS, Anychart, AmChart, Highcharts, HTML, CSS, SASS, Gulp, Celery, RabbitMQ, MySQL, PostgreSQL, PostgreSQL FTS, Memcached, Redis, Nginx, Fabric, Salt Stack, Ansible, AWS

Freelance | DioraShop   2012 - 2013

Handiwork commodities online shop.   http://www.diorashop.com/

Open Source | nagios-notification-google-calendar   2013 - Present

Notifications via Google Calendar Nagios plugin.   https://github.com/vint21h/nagios-notification-google-calendar/

DCOD | DCOD   2013 - 2019

DCOD site   http://www.d-cod.com/
Python/Django developer
- Page generation system development
- Frontend development
- Deploy development and implementation

Python, Django, Cactus, JavaScript, JQuery, HTML, CSS, Ansible, AWS

Open Source | django-po2xls   2013 - Present

Convert gettext .po files to .xls.   https://github.com/vint21h/django-po2xls/

DCOD | bstRating   2013 - 2015

Free companies catalog/rating.   http://www.bstrating.com/
Python/Django developer
- Project architecture development and implementation
- Main modules implementation
- Frontend development
- Deploy development and implementation

Python, Django, JavaScript, JQuery, Backbone, HTML, CSS, PostgreSQL, Memcached, Redis, Nginx, AWS

Open Source | django-mcadmin   2013 - Present

Easy run management commands from Django admin.   https://github.com/vint21h/django-mcadmin/

DCOD | FRB   2013 - 2015

FINROSTBANK official site.   http://www.frb.com.ua/
Python/Django developer
- Project architecture development and implementation
- Main modules implementation
- Frontend development
- Deploy development and implementation

Python, Django, JavaScript, JQuery, Backbone, HTML, CSS, Celery, RabbitMQ, PostgreSQL, PostgreSQL FTS, Memcached, Redis, Nginx, AWS

DCOD | AgroCharts   2013 - 2016

Increase the information content and traffic to your website by placing on it the latest data of USDA reports, foreign trade and futures. Learn how to get the embed code for your site...   http://www.agrocharts.com/en/
Python/Django developer
- Project architecture development and implementation
- Main modules implementation
- Distributed data sources parsing architecture development and implementation
- Distributed data caching system architecture development and implementation
- Distributed cache invalidation system architecture development and implementation
- Frontend development
- Deploy development and implementation

Python, Multithreading, Django, JavaScript, JQuery, Backbone, Highcharts, HTML, CSS, SASS, Gulp, Celery, RabbitMQ, PostgreSQL, PostgreSQL FTS, Memcached, Redis, Nginx, Salt Stack, Ansible, AWS

`Open Source` django-xls2po	2014 - Present

django-xls2po is a django management command to convert django-po2xls generated .xls files to .po files.

https://github.com/vint21h/django-xls2po/

Really full django read only admin implementation.

https://github.com/vint21h/django-read-only-admin/

`DCOD` BSTfeed

2017 - 2019

BSTfeed.com - your best independent source for grains, oilseeds and feedstuffs markets data.

https://www.bstfeed.com/

Python/Django developer
- Project architecture development and implementation
- Main modules implementation
- Distributed data sources parsing architecture development and implementation
- Distributed data caching system architecture development and implementation
- Distributed cache invalidation system architecture development and implementation
- Frontend development
- Deploy development and implementation

Python, Multithreading, Django, JavaScript, JQuery, Backbone, Highcharts, HTML, CSS, SASS, Gulp, Celery, RabbitMQ, PostgreSQL, PostgreSQL FTS, Memcached, Redis, Nginx, Ansible, AWS

`DCOD` EterArt

2018 - 2019

EterArt - a unique blockchain platform for collecting and trading digital versions of art objects.

https://www.eterart.com/

Python/Django developer
- Project architecture development and implementation
- Main modules implementation
- Distributed data sources parsing architecture development and implementation
- Partial Ethereum contract development and deploy implementation
- Frontend development
- Deploy development and implementation

Python, Multithreading, Django, JavaScript, Webpack, JQuery, Backbone, Web3, HTML, CSS, SASS, Gulp, Solidity, Truffle, Celery, RabbitMQ, PostgreSQL, PostgreSQL FTS, Memcached, Redis, Ethereum, Nginx, Ansible, AWS, Python Code Analysis/Quality tools

`Open Source` django-humans-txt

2018 - Present

Handle humans.txt for django

https://github.com/vint21h/django-humans-txt/

`Open Source` django-xicon

2019 - Present

Handle modern bunch of site icons for django

https://github.com/vint21h/django-xicon/

`Zakaz.ua` Zakaz.ua

2019 - 2020

Hypermarket goods delivery service

https://zakaz.ua/

Python developer
- Back-office business workflow requirements implementation
- Business logic problems investigation
- Back-end services intercommunication mechanisms development and implementation

Python, Apache CouchDB, Apache Solr, RQ, Python Code Analysis/Quality tools, PostgreSQL, Redis, Docker, docker-compose

---

Education

Донецький Державний Інститут Штучного Інтелекту (State Institute of Artificial Intelligence)

2004 - 2006
